The subscription price of the Daily Union is ten dollars per annum. The T-t Weekly (published semi-weekly during the recess of Congress) is the dollars per annum, and contains all the reading matter which appears in the baily. The Weekly Union is furnished to subscribers at the low rate of one dollar per annum, and is justly regarded as the cheapest political paper in the world. It is a large and handsomely-printed sheet, and contains as much reading matter in the course of a week-remont as would make tacke ordinary occare ordinars. It will be found to possess the advantages of both a political and a family newspaper. The most important political articles of the daily issue are transferred to the weekly, and during the sitting of Congress a careful instract of the daily proceedings of the two bouses is propared exclusively for its columns. It contains, besides all important State papers of the year, election returns from every State in the Union, speeches of distinguished democratis in and out of Congress; interesting correspondence, a full summary of foreign and domestic news, and from week to week such information in regard to the agricultural manufacturing, and commercial interests of the country as will be found, it is believed, of particular value.

FURNACES. THE ATTENTION of the community generally, and of house-builders particularly, is invited to the Keystone Heater, lately patented by J. D. Green, of Philadelphia.

All persons interested are solicited to call at our store and satisfy themselves of the superiority of this heater over all others in use. So successfully have the principles of combustion been applied in its construction, that although it presents a radiating surface of one hundred and fifty square feet, it requires thirty per cent. less coal than any furnace heretofore manufactured.

Every improvement that an experience of thirty years in the furnace business could suggest has been applied in the production of the Keystone Heater, and its proprietors feel assured that, for efficiency and economy of use, it is unsurpassed.

MANUFACTURING COMPANY'S IMPROVED SEWING MACHINES,

THESE machines combine all the improvements that have been invented. Their extensive and increasing sale, and the unanimous approval and commendation that they have necived, warrant the proprietors in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

Among the undoubted advantages that they possess over all others,
